Entertainment

What to stream this week: Dua Lipa, Seinfeld's 'Unfrosted' 'Hacks' and 'Welcome to Wrexham'

The return of "Hacks" and a new Jerry Seinfeld movie are some of the new television, movies, music and games headed to a device near you.

Also among the streaming offerings worth your time as selected by The Associated Press' entertainment journalists: New episodes of "Behind the Music," Selena Gomez taking her cooking skills to restaurants and a video game for political junkies.

NEW MOVIES TO STREAM

— **Jerry Seinfeld** has been very picky about his post-"Seinfeld" projects, but the comedian stars in, co-writes and directs the new Netflix comedy "Unfrosted" (streaming May 3). The film, an origin story for the Pop-Tart, is as stocked with comic talent as it is ridiculousness. Melissa McCarthy, Jim Gaffigan, Amy Schumer, Hugh Grant and many others co-star in Seinfeld's satire of Kellogg's and Post in a heated race to create a new breakfast treat. — "Documenting Police Use of Force" is the result of a three-year investigation by PBS' "Frontline," The Associated

Press and Howard Center for Investigative Journalism examining deaths that have followed police use of tactics known as "less-lethal force."

Though tactics like prone restraint are meant to be less deadly than firearms, the investigation found that their use, or misuse, led to more than 1,000 deaths over 10 years — often in encounters that began with a minor incident. The film begins streaming on APNews.com, PBS.org/frontline and in the PBS app Tuesday at 7 p.m. EDT. It also premieres on PBS stations (check local listings), on Frontline's YouTube channel at 10 p.m. Tuesday and will be available on the PBS Documentaries Prime Video Channel.

— If you missed "The Holdovers," Alexander Payne's Oscar-winning '70s-set boarding school comic drama, the film arrives Monday on Prime Video. The film was nominated for five Oscars, including best actor for Paul Giamatti, and went home with one: best supporting actress for Da'Vine Joy Randolph. Giamatti stars as a

curmudgeonly teacher tasked with watching a student (Dominic Sessa) over Christmas break.

— AP Film Writer Jake Coyle

NEW MUSIC TO STREAM

— First came "Houdini," a club-banger with new edge. Then the lively ambitiousness of "Training Season," and the elastic bass of "Illusion." The English-Albanian pop superstar **Dua Lipa**'s third album, "Radical Optimism," is built of her longstanding pop sensibilities. But she's shifted slightly away from the disco-pop of 2020's "Future Nostalgia" and instead, has embraced pop-psychedelia in influences like Primal Scream and Massive Attack, at least partially thanks to a new collaborator in Tame Impala's Kevin Parker. It's a euphoric ride straight to the club, and a reminder of the necessity of danceable music in resilience.

— In the late '90s and carrying into the 2010s, VH1's documentary series "Behind the Music" offered in-depth insight into the top performers of the past and present —

highlighting their path of success and obstacles faced in the process. For music obsesses, it was an education. If you missed it, or if you're missing it right now, long no more: Paramount+ will debut new episodes of "Behind the Music" on May 1, spotlighting Bell Biv DeVoe, Trace Adkins and Wolfgang Van Halen. And while you wait: There are episodes from the original series available to stream on Paramount+ right now, featuring everyone from Boy George and Busta Rhymes to Jennifer Lopez and New Kids on the Block.

— AP Music Writer Maria Sherman

NEW SHOWS TO STREAM

— The long-awaited third season of **"Hacks,"** starring Jean Smart and Hannah Einbinder returns May 2. The show picks up about a year after the finale of season two, with its two stars seemingly worlds apart. Smart's Deborah Vance is at the top of her stand-up game in Las Vegas and Einbinder's Ava is busy working as a writer in Los Angeles. The separation doesn't last long as the two

can't seem to quit each other. Another reason to tune in? The comedic duo Paul W. Downs and Megan Stalter (playing agent Jimmy and his not at all trusty assistant, Kayla) have been bumped up to series regulars. "Hacks" returns for season 3 on May 2 on Max.

— Rob McElhenney and Ryan Reynolds continue their grand experiment of owning a football club on season three of FX's **"Welcome to Wrexham."** We begin with a rewind to last summer — with the Red Dragons on a high, touring America and enjoying the perks of upgrades to their facility. "Welcome to Wrexham" season 3 debuts May 2 on FX. Streams next day on Hulu.

— While fans wait for the sixth and final season of "The Handmaid's Tale," a new Elisabeth Moss series called "The Veil" is coming to Hulu from FX. The series takes place in the high-stakes world of international espionage with Moss portraying a MI6 agent. "I can change into anything, become 100 strangers," Moss says in the show's trail-

er. "The Veil" streams on Hulu beginning April 30.

— We watched Selena Gomez learn to cook over Zoom for four seasons of "Selena + Chef," and now she's ready to say "Yes, Chef!" in restaurant kitchens. In her new Food Network series "Selena + Restaurant," Gomez and her bestie Raquelle Stevens visit popular LA-area restaurants to try to create a dish that would make the menu. The show premieres May 2 on Food Network and streams on Max.

— The comedy festival Netflix is a Joke is upping the ante by offering some events live on the streamer. Katt Williams, known for his no holds barred commentary is set to go live with a stand-up set called "Woke Folk" on May 4. And Kevin Hart will host "The Roast of Tom Brady" on May 5. "I played in the NFL, so I'm not worried about a bunch of comedians, trust me," taunted the seven-time Super Bowl winner in a video shared with NBC's "TODAY" show. Brady says he does not know who will appear to roast him.

ROYAL STARS | FROM KING FEATURES SYNDICATE By Georgia Nicols

MOON ALERT: Avoid shopping or making important decisions from 5 a.m. to 3:15 p.m. EDT today (2 a.m. to 12:15 p.m.) After that, the Moon moves from Aquarius into Pisces.

HAPPY BIRTHDAY for Thursday, May 2, 2024. You are courteous, helpful, sensitive and caring. You are also an independent thinker who is fiercely honest. This year you will receive acknowledgement and appreciation for your past efforts. This is why you can expect kudos, awards, promotions — whatever acknowledges your past efforts and talents. Bravo!

THE STARS SHOW THE KIND OF DAY YOU'LL HAVE: 5-Dynamic; 4-Positive; 3-Average; 2-So-so; 1-Difficult

ARIES (March 21-April 19) ★★★ At this time, your chart has a strong emphasis on money, cash flow and financial dealings. Therefore, do be aware of the restrictions of the Moon Alert today. Nevertheless, this is a laid-back day that will promote socializing with others and having good times. Tonight: Romance.

TAURUS (April 20-May 20) ★★★ You're high-viz for several reasons right now in your chart. This means you should be aware that people notice you and are aware of what you're doing, especially people in authority, including the police. Avoid shopping and important decisions during the Moon Alert. Tonight: Good vibes.

GEMINI (May 21-June 20) ★★★ This is a poor day to ask for permission or approval from authority figures, teachers, parents or bosses, primarily because there is a Moon Alert for much of this day. Stay chill and keep things laid-back. Enjoy your

privacy. Tonight: Interesting people. **CANCER** (June 21-July 22) ★★★ Avoid important financial decisions, especially about shared property, taxes, debt and inheritances today because of the Moon Alert. Instead, enjoy the company of friends and groups, particularly younger people and creative, talented types. Tonight: Check your finances.

LEO (July 23-Aug. 22) ★★★ This is a lazy day. Enjoy yourself. You might make a great impression on bosses and VIPs. Nevertheless, postpone important decisions and shopping until tomorrow. Travel plans might interest you because you have a strong desire for a change of scenery. Tonight: Flirtations.

VIRGO (Aug. 23-Sept. 22) ★★★ You might feel restless today. You want a change of scenery. You have an urge to shake things up a little. It's a good day to relax and check out different possibilities. Why not explore your own neighborhood? We take so much for granted. Who knows what you will discover? Tonight: Helpful colleagues.

LIBRA (Sept. 23-Oct. 22) ★★★ Be patient with partners and close friends right now. Mars is opposite your sign for the next month, so consider this an opportunity to develop patience, which is a virtue. Enjoy socializing with romantic partners, sports colleagues and children. Live it up! Tonight: Warm romance.

SCORPIO (Oct. 23-Nov. 21) ★★★ Take it easy today. You might want to reserve your energy for tomorrow, which is a productive day. Enjoy time at home or socialize with romantic partners, kids and sports colleagues later in the day. Make an effort to participate in social outings. Tonight: Entertain.

SAGITTARIUS (Nov. 22-Dec. 21) ★★★ Although your focus is on work and productivity right now, this is a good day to relax. Enjoy talking to neighbors, siblings and relatives. Later in the day, you'll be happy to cocoon and enjoy the privacy of your home. Family discussions might be significant. Tonight: Socialize!

CAPRICORN (Dec. 22-Jan. 19) ★★★ Give yourself permission to play hooky today. Take a long lunch. Take off of work if you can. Accept invitations to socialize with others. Enjoy sports events and fun activities with kids. The arts will also appeal to you. Someone might help you with home renovations or improvements where you live. Tonight: Generosity.

AQUARIUS (Jan. 20-Feb. 18) ★★★ Home and family are your priority right now. In fact, many of you are involved in DIY projects and home repairs. You also might want to entertain at home. With Mars in your House of Communications, you are forthright, direct and convincing! No one will refuse you. Tonight: Entertain!

PISCES (Feb. 19-March 20) ★★★ This is a busy, fast-paced week. However, today is a good time to relax or to take things at a slower pace. Enjoy casual conversations. You might also enjoy writing or studying today. It's the classic day to take a moment to smell the roses. The act of appreciation is not only pleasant, it's life-enriching! Tonight: Secret love.

SERVING

Continued from Page 1

The enrollment of the 340B Federal program in 2015, allowed CHWP to receive discounted priced drugs for service of their patients

During 2015, a partnership with OSU College of Nursing led to the implementation of services in Behavioral Health, Pharmacy, and Nutrition, and the Medication Assisted Treatment (MAT).

With multiple community agency support, 70 patients and 11 opioid patients were treated in 2016. That number of patients grew by nearly double the following year, making the MAT program a success, and it continues to be a strong program today.

The Federal Tort Claims Act deemed CHWP a medical covered entity. Experienced growth in programming and services, led to organizational growth by the merging of Oakhill Medical Associates in 2016. With this, CHWP grew by three times overnight – serving 2,500 patients to over 10,000. CHWP was awarded recognition by the National Council of Quality Assurance as a Patient-Centered Medical Home; and staff recognition – Jason Martinez, Pharmacist of CHWP, was the first Board Certified Ambulatory Care Pharmacist (BCAP) in Logan County!

With the addition of psychiatry to the practice, provided by Dr. Jillian Shellabarger and appointment of Dr. Kenneth Miller to Chief Medical Officer, CHWP integrated Behavioral Health into Primary Care in 2017.

The graduation of services also presented a rebrand opportunity, in which – 'Care to Live Life Fully,' was applied to the logo.

In 2018, CHWP opened its third health center location in Bellefontaine. Implementing their TeamCare approach to delivering health care, with patients having access to all CHWP services, including Chronic Care Management, also was newly added in 2019.

CHWP received state and national recognition for their Wholesome Rx program, made possible by the Ohio Department of Health grant – a national organization dedicated to ensuring affordable access to fresh produce.

A total of 129 diabetic patients participated in the program and gained knowledge in healthy eating education for diabetes.

During the challenges of the 2020 COVID pandemic, CHWP addressed community needs by implementing their Emergency Management Plan. A surge clinic at the Bellefontaine location was established to support health services, and later transitioned to a sick bay. Telehealth services were issued within three days of declaration of the pandemic and have become increasingly popular ever since 2020.

From the convenience perspective and meeting patients where they are, CHWP also expanded its availability by offering services via a new Mobile Health Unit.

As the pandemic continued, convenience continued to be a vital role and perspective to CHWP's approach to care.

To improve health care availability, CHWP opened its first School-Based Health Center in 2020 at West Liberty-Salem.

School-based health centers provide access to health care for all children whose parents have given permission, regardless of insurance coverage or ability to pay.

Parents know they will not have to miss work to care for minor problems. Children receive prompt attention from health care providers. School-based health services may be utilized by students, faculty, staff and household members.

Growth continues to be a word to describe CHWP, and the organization exceeded 100 employees in 2021. CHWP's very first Chief Operating Officer was hired and then during 2022, the first Human Resources Officer.

CHWP's continued service efforts have been recognized through its receipt of the following awards: Smart 50 Business Honoree of Columbus, continued Joint

Commission Gold Seal of Accreditation, 2021 Logan County Chamber of Commerce Non-Profit of the Year, 2021 Best Health Care Provider Award, and 2021 Hypertension Control Exemplar.

During 2022, CHWP expanded its service area to Champaign County, opening in Urbana the newly renovated Q3 Johnson Manufacturing Company, Inc. building.

The health center serves the community in primary care, integrated behavioral health, pharmacy, chronic care management such as diabetes and hypertension, and medication assisted treatment for alcohol and substance use of all kinds. CHWP has an ongoing collaborative partnership with Mercy Health – Urbana.

To further expand access to children, CHWP opened its second SBHC at Benjamin Logan. CHWP not only grew demographically, in 2022, they expanded their knowledge in community awareness, quality and safety, and advancing technology. Individuals can conveniently become a patient and schedule online.

In 2022, CHWP was awarded Logan County Best Health Care Provider the second straight year, Awardee of Health Resources and Services Administration (HRSA) Health Center Quality Leader silver Badge, and continues to be accredited by Joint Commission through 2027.

CHWP believes that school-based health care can play an important role in helping families manage the physical and mental health

needs of their children. Having a health center on-site at a school offers a convenient way for parents to have their child seen by a primary care or behavioral health provider.

In 2023, their third school-based health center opened at Indian Lake. Bair shared that health centers inside the schools provide convenience for families and promotes better health, impacting healthy students and bright futures.

The newest approach to care, a dual health center – serving community and school opened at Riverside Schools. Riverside Community Health Center is an extension of the school with an exterior entrance for the community and a secure entrance/exit from the school, providing identical services the community has grown accustomed to receiving as CHWP patients.

"Although Riverside is the newest approach to care, CHWP is growing again," Bair shared. "To meet the needs and convenience of patients, the Bellefontaine office will undergo renovations to provide a new service to everyone!"

Details of the renovations will be shared via social media and local media soon.

Driving the success and growth of the organization is its mission to provide quali-

ty, whole-person, patient centered health care to anyone and everyone in the community.

With CHWP, healthcare is more accessible, affordable and advocacy for their patient's wellbeing is at the forefront of health care delivery. Patients can experience a more well-rounded approach to addressing their health care needs by receiving primary care, integrated ancillary services including behavioral health care, pharmacy services, nutrition services and more.

A 97 percent patient satisfaction performance rate is a direct reflection of their personalized care approach. Community Health & Wellness Partners delivers care to patients regardless of their age, gender, income level, insurance, or ability to pay. They are accepting new patients. The health center is a grantee of funding awards supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS). Further, this health center is a Health Center Program grantee under 42 U.S.C.254b and deemed a Public Health Service employee under 42 U.S.C. 233(g)-(n) and a Federal Tort Claims Act (FTCA) entity.

TRC honored as Large Business of the Year by Union County Chamber

BY THE EXAMINER STAFF

Transportation Research Center Inc., North America's most comprehensive and advanced independent automotive research and testing proving grounds, has been named Large Business of the Year by the Union County Chamber of Commerce.

The Chamber's annual Excellence in Business Awards recognize the owners and employees of local businesses and nonprofits who are creating a thriving community.

"All of us at TRC are honored by this recognition of the important role we play in our home community and our work over many decades to make this region a focal point for groundbreaking research that's helped shape the future of transportation in America and across the globe," said Brett Roubinek, president and CEO of the TRC.

"As a result of breakthroughs made here, the world's roads are more reliable and its vehicles are safer and more environment-friendly, while we're also making valuable contributions to the strength of our state and community economies."

Roubinek cited TRC's close alliance with the NW 33 Council of Governments - Union County and the cities of Marysville and Dublin - and the Beta District to advance

technology on the 35-mile Smart Mobility Corridor. Together, with its local partners, TRC is proud to help foster an environment where technology innovators can find the ecosystem for success.

"Many TRC team members and their families reside in Union County, where they proudly con-

tribute to community activities, schools and social organizations," he added.

Since its dedication 50 years ago, TRC has attracted more than 1,000 clients from world-leading industries and partnered with decision makers in every sector - government, industry, research, education - to bring fresh ways of thinking about vehicles and the roadways they travel.

TRC's 4,500-acre East Liberty campus in Union and Logan counties, with an expert team of 500 engineers and other specialists, operates around the clock to conduct tests in a variety of

advanced research facilities that include closed-road courses, rural lanes, a 7.5-mile high-speed oval test track, and a 50-acre vehicle dynamics area.

Among TRC accomplishments have been its key roles in the development of automotive innovations such as airbags, anti-lock brakes, lane assist, adaptive cruise control - were all tested and refined here at TRC before they appeared on American roadways. Most recently, TRC has developed pioneering testing facilities for the development of autonomous driving technologies.
